

How will your organization handle the new Federal Rules of Civil Procedure...

...and the impact they have on email and eDiscovery?

In just 90 minutes you'll learn the answers to...

- Who is impacted by FRCP
- How FRCP impacts IT
- Is this a legal or technology issue
- How archiving improves retention, expiry, hold & production
- How archiving reduces costs of eDiscovery search & review
- How FRCP fits with other requirements like compliance
- Who needs to be involved
- What are emerging best practices

Please join us for a briefing on the new Federal Rules of Civil Procedure and the issues facing Legal and IT

Woodbridge Sheraton – New Jersey
May 8, 2007

Learn about the resulting legal implications and the technology to address them.

New amendments to the Federal Rules of Civil Procedure (FRCP) require organizations to address eDiscovery issues at the outset of litigation.

Legal departments need to define the policies for retention, expiry and discovery. IT Departments now have strict requirements around the preservation of email and files.

Hear from the experts.

MARK DIAMOND, *President of [Contoural](#)*, an independent consulting services provider, and **TED BARASSI**, *[Symantec](#) Vice President of Information Risk Strategy*, will provide both a legal and technical perspective on the issues of eDiscovery and FRCP.

They'll discuss the impact of the new Federal Rules on organizations like yours, as well as other drivers of eDiscovery preparedness.

Please extend this invitation to your internal Legal or IT team to fully leverage the information this session will provide!

WHEN: Tuesday, May 8, 2007
